

WOOD BLINDS

Capture the beauty of nature with natural wooden blinds. Wood blinds add a touch of comfort and character to any room. It allows you to easily control the light by simply tilting the slats while providing you with enough privacy.

Our wood blinds are made from basswood – the material that remains to be one of the best and most ideal for wood blinds. Aside from its lightweight nature, basswood maintains its shape and prevents any warping or sagging for the years to come.
